So, It Rained 2 Feet, Now What?

William F. Hunt, III
William Neal Ryenolds Professor &
Extension Specialist,
NC State University

Hurricane Florence and her predecessors have brought into question the size of storms for which we should be designing. Is the status quo sufficient or should we rethink the location and types of development in the face of what might be the “new” normal for rainfall?

Join NCWRA and Dr. William (Bill) Hunt for this engaging conversation as we kick off the 2019 fall forum series in Raleigh!

ONLINE REGISTRATION AVAILABLE!
